West Elevation 1:200

East Elevation 1:200

The Garage System

There are two types of green boxes .
The ones with staircase and the ones with green garden .
Here can you see the green boxes which connected with building from garage with staircase.

Here is the undergroundgarage which has a way to buildings without the boxes. The slope is eight meters for a comfortable drive.

The Greenbox Buildings

The greenbox buildings is a concept where humans can benefit from nature and we can give as human at least greenery to the enviroment.
The greenboxes Bestween the Buildings can youl feel as you were in Nature and feel home. The greenbox is a place for having your own garden. You can plant your own plants there.

The key poin is that nature is healty for us humans .
