

THE ONLINE ACTIVITY OF RUSSIAN CIVIL SOCIETY IN THE CONTEXT OF LOCAL SOCIO-POLITICAL CONDITIONS

Abstract

The last two decades have been a period of intensive development of the Internet network that has revolutionized the functioning of societies and politics. The article concerns the impact of the Internet on the shape of current civil society in Russia. The aim of the presented work is an attempt to show the most popular forms of cyberactivism in Russia and to present mechanisms of controlling Internet content and online civic activities by authorities.

Keywords: Russian Federation, civil society, Internet, cyberactivism.
