

## **THE CONCEPTS OF AMERICAN FOREIGN POLICY DURING THE PRESIDENCY OF DONALD TRUMP. REVIEW OF THE ALLIED MILITARY AND ECONOMIC ASSUMPTIONS**

### **Abstract**

The purpose of this science article is to analyze the role of the United States in the international system during the presidency of Donald Trump. Due to the above considerations, the hypothesis of the article indicates that American leadership in world affairs during the presidency of Donald Trump is weakened due to the strategic foreign policy and foreign economic policy' assumption. The article distinguishes four of the most important research questions that points the importance of the role and position of the U.S. in the international system in historical terms, an analysis of Donald Trump's strategic foreign policy priorities, the American defense concept and the allied network, and the main assumptions of the foreign economic policy strategy.

**Keywords:** world liberal order, U.S. foreign policy, global leadership, Donald Trump, trade policy, international security.
