

# **THE LEGAL ISSUES IN RELATION TO EMPLOYMENT OF MIGRANTS AND THEIR HEALTH PROTECTION**

## **Abstract**

**The subject of the article** is to present the legal issues of employment of migrants and their health services. The research problem was formulated as a question: what employment and health problems of migrants are important within emigration and immigration. The author of the article also tries to answer the questions about the employment of non-UE migrants, problems of eastern and western Europe migrants, the trends of immigration to Poland, the creation of enterprises by foreigners in Poland. In the second part of the work, the author referred to the legal principles regarding foreign healthcare patients and periodic health examinations of foreign employees. The theoretical goal of the article is to present employment issues for foreigners from various legal perspectives. The practical goal is to indicate reforming factors in employment policy in relation to foreigners. The author used continuous sources from the paper "Social Policy" and applicable legal acts.

**Keywords:** law, migrant, foreigner, refugee, employment, health.
