

STRATEGIC PARTNERSHIP AS A DOCTRINE AND CATEGORY DEFINING POLISH-AMERICAN RELATIONS

Summary

The purpose of this publication is to define Polish-American relations based on the concept of strategic partnership and to generally define the level of Polish-American relations conceptualization. The main method used in this article is content and framing analysis. The content analysis covered the programs of Polish political parties and the exposé of prime ministers and foreign ministers in relation to Polish-American relations. The analysis of the programs is to show the level of conceptualization of Polish-American relations at the political party level. The programs are an emanation of the ideological and programmatic profile of the party.
