VISTULA UNIVERSITY IN WARSAW

vistula.edu.pl

Vistula University is a higher education institution open to the world and taking a multicultural and innovative approach to contemporary and future challenges. It ranks among the best non-public universities in Poland and its academics are outstanding experts and practitioners. The institution stands out on the market for its prestigious international accreditations: CEEMAN IQA (The International Association for Management Development in Dynamic Societies International Quality Accreditation), which is a proof of high-level managerial education; ACCA (The Association of Chartered Certified Accountants), which is the most important accreditation in the area of finance and accounting, and PMI GAC (Global Accreditation Center for Project Management Education Programs), which is a certificate of high-quality education in the field of Project Management.

Vistula University has been the leader in internationalization for many years. We implement innovations, develop e-learning, stay up to date with the key contemporary issues, such as cybersecurity, China's policy, Industry 4.0, development of artificial intelligence and robotics. It offers over 40 study programs - first- and second-degree studies, both in Polish and English, full-time and part-time, including online studies, as well as postgraduate studies. At Vistula, students are the priority.

You will discover your talents and define your career plans in the atmosphere of openness, trust and partnership. You will gain the knowledge that you will really need and acquire the qualifications that employers are looking for. You will gain the necessary experience during paid and unpaid internships and placements in companies operating in different industries. You will have the opportunity to take part in prestigious projects.

Vistula cooperates with over 40 foreign universities. First-degree students in the fields of Computer Engineering and Management with the specialization in Business Management can study for two semesters at Centria University in Finland and, as a result, obtain a Bachelor's degree from both institutions.

VISTULA SCHOOL OF HOSPITALITY IN WARSAW

vistulahospitality.edu.pl

The Vistula School of Hospitality is a renowned student-oriented higher education institution marked for its international atmosphere and strong business ties. It provides education for future employees of the leisure and hospitality labour markets. It is the first university in Poland to obtain the prestigious THE-ICE accreditation (The International Center of Excellence in Tourism and Hospitality Education) - a mark of the highest standard of education quality.

The Vistula School of Hospitality offers unique full-time and part-time Bachelor's and Master's degree programs in the fields of Tourism and Recreation, Tourism and Hospitality, Dietetics and Lifestyle Coaching.

The University is a school of global opportunities that will prepare you for an international career. You will gain a diploma from a recognised institution. Thanks to the contract signed with B.H.M.S. Business & Hotel Management School in Lucerne, you can study in Switzerland for a year and get a double or even a triple Bachelor's or Master's degree from Vistula and from B.H.M.S and Robert Gordon University.

At the Vistula School of Hospitality will gain valuable experience during domestic and foreign internships. You can also obtain internationally recognised professional certifications.

We boast of our graduates, we track and support their careers, and award the best of them. In the annual Vistula Compasses competition, we select and honour graduates who have achieved significant success in their professional careers related to broadly understood hospitality demonstrating great enthusiasm and potential. The competences and professional path of Vistula's alumni are a measure of its success. They testify to the quality of education and practical preparation. Our graduates are the University's best ambassadors.

AWARDS AND DISTINCTIONS, COOPERATION

Perspektywy

Perspektywy - leading position among non-public universities in the prestigious Ranking of Universities Perspektywy 2021 and the leader in terms of internationalization; our students and academics come from 100 countries, all courses are conducted in Polish and English.

ELA - 1st place in the national system of monitoring the Economic Fate of University Graduates (ELA) in the "Management" category; a graduate of second-degree part-time studies at the Faculty of Business and International Relations of Vistula University a year after graduation earns on average PLN 9,193.10 gross per month.

UN Association - United Nations Association Poland - cooperation of the Vistula Group of Universities with UNAP allows students to acquire new skills, it opens up for them opportunities to participate in initiatives closely related to the activities of the UN in Poland. Students can also join the Association on preferential terms.

The organization has an office on the campus of Vistula University. It implements projects supporting and disseminating knowledge about the United Nations and the role of Poland in its activities. It runs programs in the field of sustainable development, human rights, active citizenship, education and democracy.

ACCREDITATIONS AND CERTIFICATES

VISTULA UNIVERSITY

ACCA - Vistula University is one of the few universities in Poland awarded with the full scope of ACCA qualifications. **Finance and Accounting graduates can obtain exemptions from all ACCA examinations at the Fundamentals level.** This allows them to start the process of obtaining the ACCA professional qualification faster and become a member of this international organization certifying specialists in the field of accounting and finance. This accreditation significantly strengthens the position of our students on the job market, both in Poland and abroad.

PMI GAC - Management at Vistula University has been awarded by the PMI Global Accreditation Center for Project Management Education Programs (GAC). The accreditation enables our students to access the latest knowledge and teaching materials in the field of project management. It opens the possibility of establishing close cooperation with the best business universities educating in this area through student and academic staff exchange as well as the development of the program and teaching materials. It is also a distinguishing element among universities and programs focused on education in the field of project management.

CEEMAN IQA - the Faculty of Business and International Relations at Vistula University holds an international institutional accreditation, i.e, the CEEMAN International Quality Accreditation. It is one of the most prestigious and valued international accreditations in the field of managerial education. It confirms the unit's compliance with the requirements for its efficient operation, high-quality research and education, financial stability, impact on the environment, relations with the business community and commitment to socially responsible practices.

VISTULA SCHOOL OF HOSPITALITY

THE-ICE - one of the two most important accreditations in the world granted to universities educating for the needs of industries dealing with tourism, recreation, organization of events and culinary arts. **The Vistula School of Hospitality was the first in Poland to obtain this accreditation.** It guarantees our students high-quality education programs designed in accordance with European standards, i.e., student-oriented, focused on understanding knowledge, critical thinking and on developing analytical and social competences. Accreditation is also a proof of the high qualifications of our academic staff - their considerable experience in the area of education, leadership and industry knowledge. It is also a confirmation of the intensive cooperation between our university and the business as well as our recognition in the world.

ARCHITECTURE

Architecture – it is 8 semesters of engineering studies, which offer students comprehensive development in many areas. It is a field for all-rounders, it combines sciences, humanities and arts.

Our lecturers are graduates of prestigious universities, practicing architects who share with students both their knowledge and valuable professional experience.

Under their guidance, Vistula students become very successful. Recently, they have won an international prestigious competition in the field of landscape architecture in Ponte de Lima, Portugal, and could personally supervise the implementation of the designed garden.

One of the diploma theses received a distinction in the 5th edition of the Jerzy Regulski, 2020 in the Idea category.

Architecture at Vistula University is a practical field of study. All practical classes are conducted face-to-face. We focus on learning both design and software to facilitate the design process. Understanding the importance of presenting architectural designs, we pay special attention to education in the field of visualization and graphic presentation based on a professionally equipped computer lab (3ds Max, AutoCad, Revit, Sketchup, Photoshop, Blender, Rhinoceros).

During your studies conducted in a friendly, relaxed atmosphere, you will learn how to consciously apply in practice the knowledge of building, installation and construction technologies to implement original architectural visions. You will learn how to manage and run your own business, office or studio, and how to protect intellectual property and copyrights. Thanks to self-presentation and marketing skills, you will stand out from the competition.

After studying architecture at Vistula University, you can develop a career in offices and design studios, development and construction companies, advertising agencies and publishing houses.

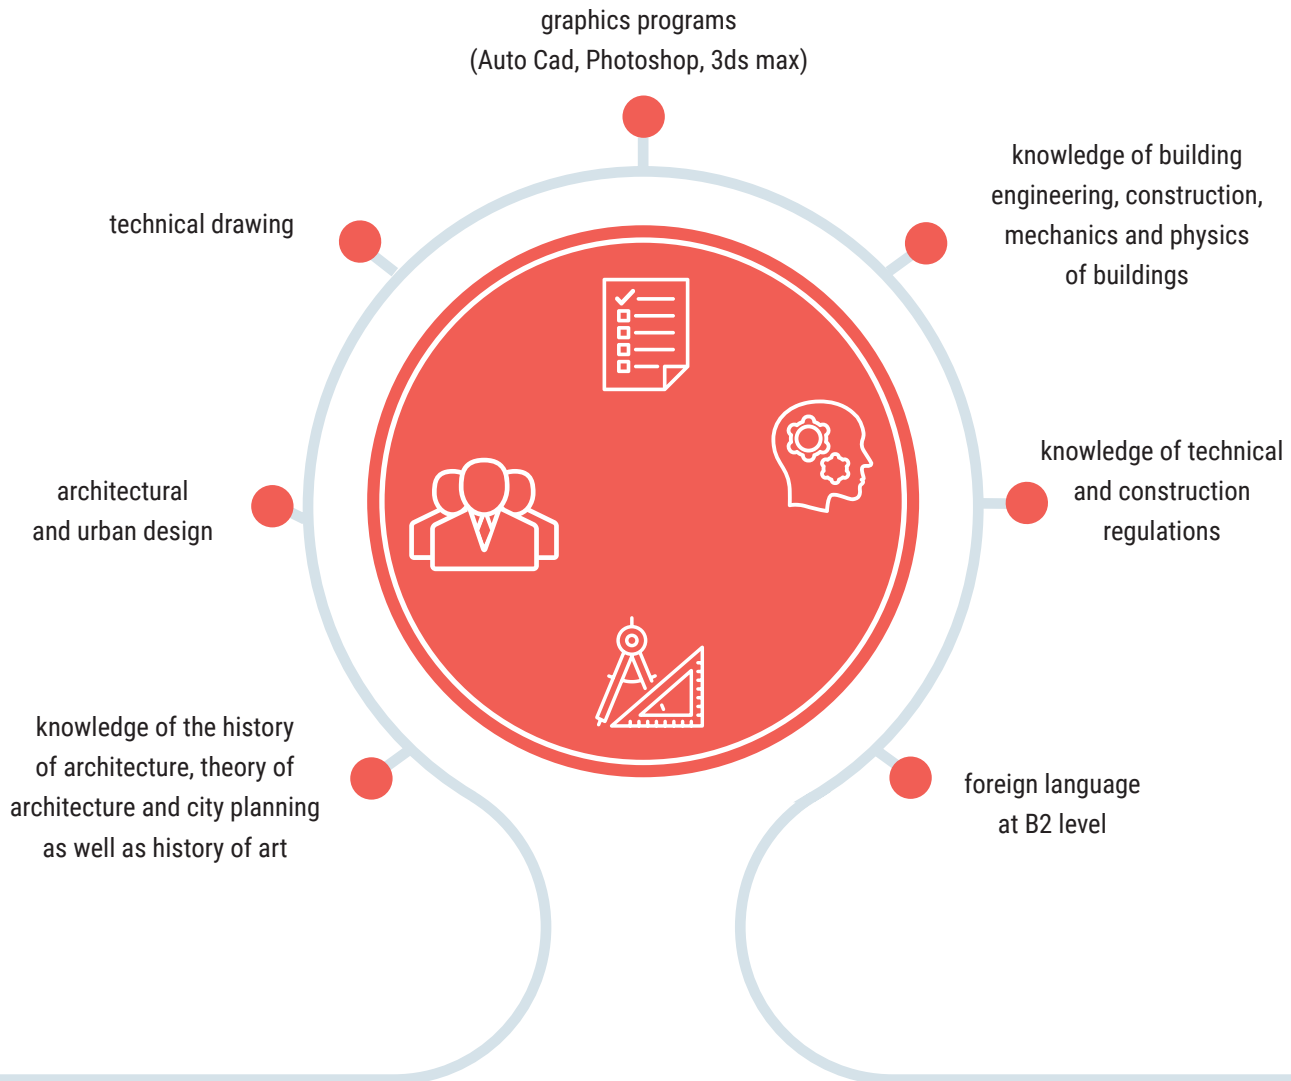

DURATION:

4 years (8 semesters) of first degree Engineering studies

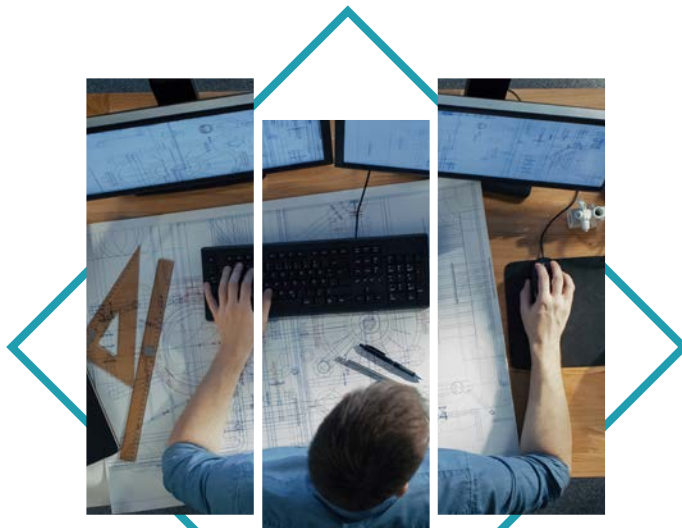

ACQUIRED COMPETENCES AND SKILLS:

AFTER STUDIES

The skills acquired during architectural studies will open up for you opportunities to work on various projects, both architectural and smaller design forms (interior design, scenography design, graphic design and other).

PARTNERSHIPS:

STUDIES ARE CONDUCTED
IN  OR IN 

Information Technology is the most popular field of study today. At Vistula University, you will gain a solid preparation in this field. You will take the first step towards a career in IT.

We listen carefully to young people's opinions. We are familiar with their expectations. Therefore, in our University, you will gain great opportunities for development in various directions. You will explore the secrets of artificial intelligence, machine learning, Big Data and robotics. You will gain knowledge in the field of automation, digital and multimedia technologies, as well as mathematics and physics. You will learn programming languages and the latest trends as well as how to develop safe computer networks, databases, applications, websites and games. You will master various programming languages - CSharp, Java, XHTML, CSS3 and JavaScript.

Thanks to our staff of experts as well as cooperation with such companies as No Gravity Games, Microsoft, Cisco and Oracle, you will gain practical skills and smoothly start a professional career.

The study program carried out during your studies will prepare you for the exams, thanks to which you will obtain the Microsoft Certified Technology Specialist (MCTS), Microsoft Certified IT Professional (MCITP), Oracle Certified Associate (OCA) and Oracle Certified Professional (OCP) certificates. They will confirm your competences, which will strengthen your position on the job market.

The program includes 750 (first-degree) / 420 (second-degree) hours of internships. You can create final course assignments and diploma theses in cooperation with leading Polish IT companies. The field seminars will allow you to join scientific discussions in the area of computer science.

Thanks to the double diploma agreement, the so-called double degree, concluded between Vistula University and the Centria University of Applied Sciences in Finland, you can study for two semesters at a partner university and, as a result, obtain an engineering diploma from both institutions.

DURATION:

3,5 years (7 semesters) of first degree Engineering studies

SPECIALITIES:

- Computer game development engineering **NEW**
- Artificial intelligence in engineering **NEW**
- Database engineering
- Web technologies engineering
- Cybersecurity and computer networks engineering
- Information systems engineering

1,5 years (3 semesters) of Master's Degree Program

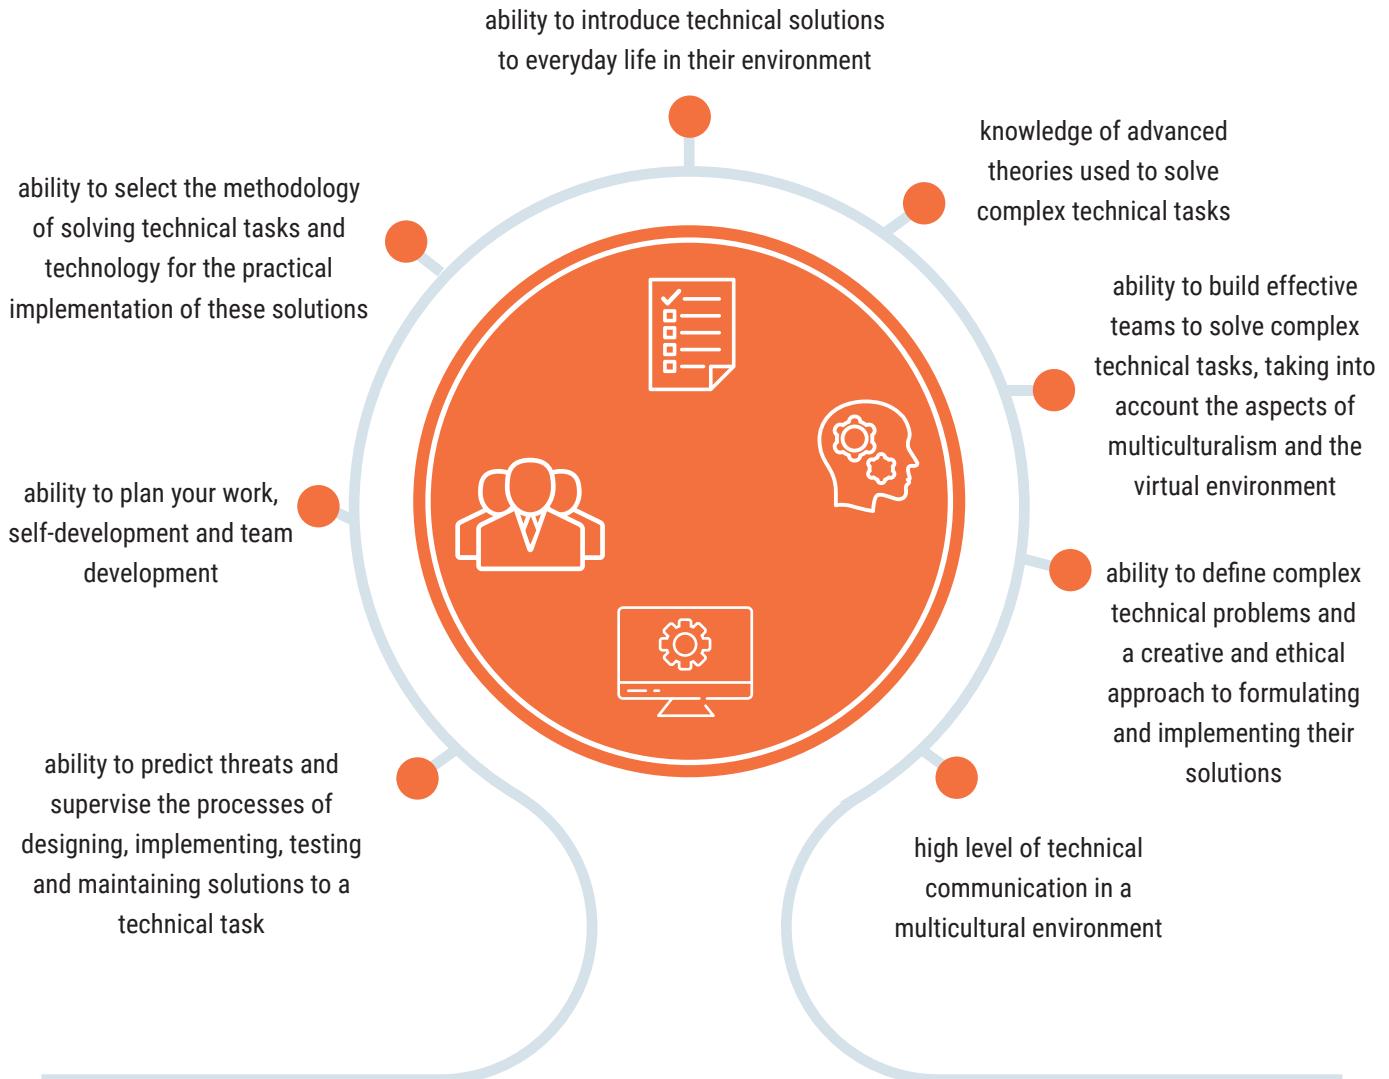

SPECIALITIES:

- Applied data science **NEW**
- Design and applications of wireless networks for internet of things
- Design and applications of mobile applications
- Cybersecurity and reliability of information and industrial systems

ACQUIRED COMPETENCES AND SKILLS AFTER THE BACHELOR'S DEGREE PROGRAM:

ACQUIRED COMPETENCES AND SKILLS AFTER THE MASTER'S DEGREE PROGRAM:

AFTER STUDIES

PROFESSIONAL PERSPECTIVES AFTER ENGINEERING STUDIES

COMPUTER GAME DEVELOPMENT ENGINEERING SPECIALTY: **NEW**

You will acquire theoretical knowledge and practical experience in designing, developing and integrating computer games. This specialty courses are conducted in cooperation with No Gravity Games.

PROFESSIONAL PERSPECTIVES:

- graphic designer and illustrator,
- game developer.

ARTIFICIAL INTELLIGENCE IN ENGINEERING SPECIALTY: **NEW**

You will learn about the theoretical aspects of artificial intelligence with an emphasis on methodologies and techniques used in engineering and management, and gain practical experience in using the acquired knowledge in practical projects.

PROFESSIONAL PERSPECTIVES:

- Big Data specialist,
- robotics engineer,
- artificial intelligence engineer.

DATABASE ENGINEERING SPECIALTY:

- data analyst,
- data architect.

WEB TECHNOLOGIES ENGINEERING SPECIALTY:

- graphic designer and illustrator,
- specialist in the Internet network,
- web developer.

CYBERSECURITY AND COMPUTER NETWORKS ENGINEERING SPECIALTY:

- network and Internet specialist,
- White Hat Hacker,
- cybersecurity specialist.

INFORMATION SYSTEMS ENGINEERING SPECIALTY:

- quality controller and test specialist,
- software architect.

PROFESSIONAL PERSPECTIVES AFTER THE MASTER'S DEGREE PROGRAM

APPLIED DATA SCIENCE SPECIALTY: **NEW**

Industry is currently experiencing an acute shortage of data analysis and application specialists, and forecasts agree that the gap between industry requirements and the availability of qualified graduates will increase. Students of our program will contribute to closing this gap by acquiring specialist education, in both theoretical knowledge and practical experience, from world-class scientists, engineers and mentors. In addition to courses in the fields of Data Analytics, Python Problem Solving, Data Visualization,

Artificial Intelligence Methods, and Deep Machine Learning, the program offers you seminars and practical exercises designed to complement your theoretical and technical knowledge with critical aspects of practical business competence. In this way, you will acquire a unique set of skills expected and required by the world's leading companies.

PROFESSIONAL PERSPECTIVES:

- data analyst,
- data architect.

DESIGN AND APPLICATIONS OF WIRELESS NETWORKS FOR INTERNET OF THINGS SPECIALTY:

- artificial intelligence engineer,
- network specialist,
- sensor specialist,
- specialist in wireless networks.

DESIGN AND APPLICATIONS OF MOBILE APPLICATIONS SPECIALTY:

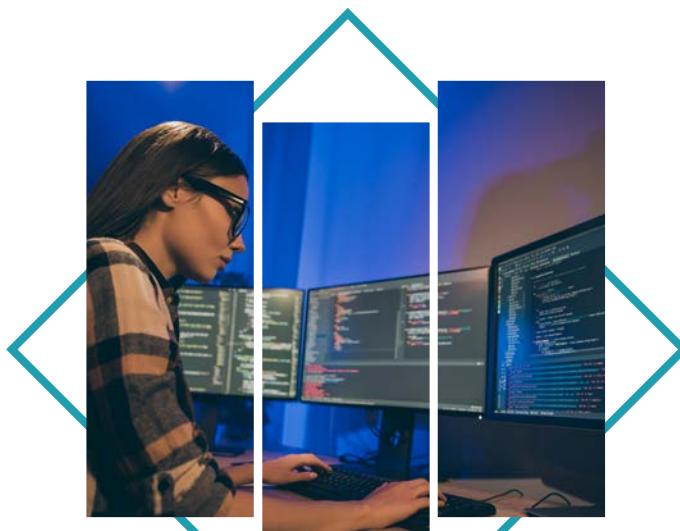

- software specialist,
- quality controller and test specialist,
- mobile applications developer.

CYBERSECURITY AND RELIABILITY OF INFORMATION AND INDUSTRIAL SYSTEMS SPECIALTY:

- network and Internet specialist,
- White Hat Hacker,
- cybersecurity specialist.

BUSINESS PARTNERSHIPS:

Oracle | Microsoft | Asecco | CISCO | ICCSS | IFS | No Gravity Games | Olsonet | Magnimind.

ENGLISH STUDIES

STUDIES ARE CONDUCTED
IN  OR IN 

Cultural awareness and knowledge of foreign languages, especially English, is essential in the era of globalization. Today, every sixth person in the world speaks English. The language dominates in politics, business, science and diplomacy.

Studies in English philology at Vistula University will allow you to gain proficiency in this language (C1 after completing the first degree studies and C2 after completing the second degree studies). You will also learn a second language of your choice at the advanced (B2) level. It is a great start.

All lectures and practical classes are interactive, with focus on developing students' practical skills. We stand out among other universities for our friendly atmosphere, individual approach, and a dynamic and multicultural environment. With such experience, you will immediately strengthen your position on the labour market.

Our lecturers include, among others, linguists, literary and cultural experts having extensive practical experience - translators, culture managers and employees of the publishing sector. They will guide you into discovering the culture, history, literature, and media of the English-speaking area. You will also gain knowledge in the field of marketing, business, and tourism. You will grow your confidence to handle any situation.

You will also develop soft skills, including the ability to conduct discussions and disputes. You will learn rhetorical strategies and use them in any work - both in business and politics. You will find your feet in every corner of the world.

Vistula University is a TOEIC and TOEFL (IBT) examination centre, therefore our students can obtain these certificates in the Practical English Final Examination. Language studies will allow you to develop in accordance with your interests, whatever field and profession you choose.

Our program includes an extended course in a chosen second foreign language. Chinese language students can participate in a summer camp in China to learn about the culture and test their own language skills in authentic interaction. Spanish language students can take advantage of university visits in Spain. Choosing Polish as their second language, foreign students besides gaining the skills necessary for their everyday life in the country, take part in trips, cultural events and discussion clubs organized by University employees and cooperating institutions. Our students will be able to confirm their language skills with the international ECL certificate.

DURATION:

3 years (6 semesters) of Bachelor's Degree Program

2 years (4 semesters) of Master's Degree Program

SPECIALITIES:

- Multicultural business and media studies
- Translation studies
- Anglophone literature and culture in the global context

SPECIALITIES:

- Translation studies
- Literature, culture and media studies

LANGUAGE COMPETENCY CERTIFICATES:

- **English language:** TOEIC, TOEFL; cooperation with ETS, LanguageCert, Prometric
- **Chinese:** HSK, cooperation with the Confucius Classroom
- **Polish:** ECL Examination System

PARTNERSHIPS:

Internships:

Stowarzyszenie Tłumaczy Polskich | Schneider Electric Sp. z o.o. | Sitel Group | Szkoła językowa Tutlo | Biuro Tłumaczeń MIW | Biuro Tłumaczeń Twoje Tłumaczenie | Rubicon Language Solution | Siteimpuls | Nuria en español.

ACADEMIC EXCHANGE:

Tianjin University of Technology in China.

ACQUIRED COMPETENCES AND SKILLS:

practical knowledge of vocabulary and concepts used in business, the ability to conduct presentations, negotiations and develop advertising materials in foreign languages

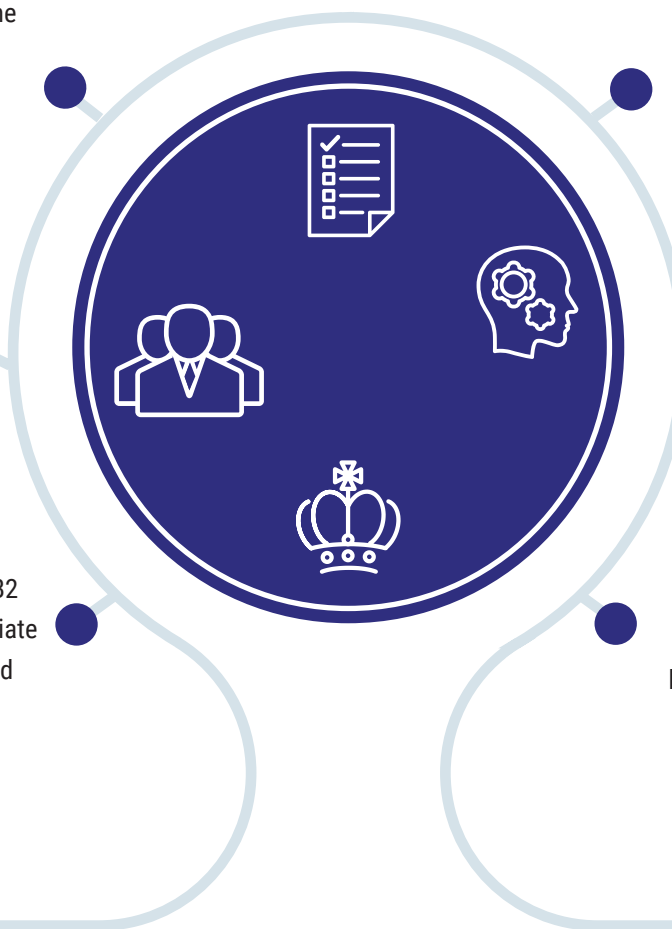

practical preparation for working in the media with the use of foreign languages

English at C1 level after the first-degree studies and C2 after the second-degree studies (confirmed with the TOEIC exam)

translation skills: specialist translator workshop, preparation for business, written, interpreting, film and literary translations

a second foreign language at B2 level (confirmed with an appropriate exam according to the selected language)

knowledge about the culture area of the English language and of the second selected language

AFTER STUDIES

After completing your studies in English Philology with extended second foreign language, you can find employment according to your interests and passions. You can work as:

- a lecturer at a language school,
- editor of portals and English-language press,
- organizer and manager of cultural events,
- specialist translator in a translation agency,
- editor or author of content in the media and / or the publishing industry,
- organizer of cultural events in the entertainment industry,
- employee of international companies and corporations,
- employee of state and non-governmental organizations, educational and cultural institutions.

GRAPHIC DESIGN

VISTULA
UNIVERSITY

STUDIES ARE CONDUCTED
IN  OR IN 

Despite the pandemic, the art market is changing and expanding both in Poland and in the world. The advertising industry is evolving and recovering from the blow inflicted to economies by COVID-19, which means that good times for graphic designers are coming back.

The field of Graphics at the Faculty of Art, Technology and Communication of Vistula University will allow you to take part in the ongoing digital revolution. You will combine traditional artistic techniques with modern ones, based on a photographic and digital workshop. As much as 70% of the classes have a practical character, while internships and painting workshops are an integral part of the studies. Thanks to this, you will develop your passion and skills sought by employers.

During your studies, you can choose one of two specialties. **Artistic graphics** will provide you with a solid base as regards drawing, painting and illustration and thus allow you to become familiar with the complexities of the creative process. You will learn at least 10 graphic techniques: linocut, colour linocut, drypoint, mezzotint, copperplate, etching, aquatint, lithography, serigraphy and algography. You will learn to use selected media and tools. You will develop artistic independence and readiness for independent creative work. You will understand the specifics of both the art market and the advertising industry. You will strengthen your position on the labour market.

By choosing **Interdisciplinary graphics** you will gain the knowledge necessary to work in the advertising industry. You will gain the competences and experience necessary in designing visual communication. You will learn about the graphic programs of the Adobe CC package: Photoshop, Illustrator, In Design, Premiere Pro, After Effect, Animate Pro. You will learn how to create in various techniques, how to prepare and transform graphic materials into a printable digital version, or how to design multimedia projects. You will also learn to create cartoons, photos and illustrations. Thanks to this, you will confidently enter the professional environment. You will fulfil yourself and achieve professional success.

POSTGRADUATE STUDIES

VISTULA
UNIVERSITY

Narrow specialization is today the key to success. Employers pay attention to diplomas, authorisations, and qualifications. Therefore, a postgraduate certificate is a valuable asset, which will give you a competitive advantage on the labour market and an additional chance for a successful professional career.

Postgraduate studies are addressed to candidates holding a Bachelor's, Master's or an engineer's degree. During your studies, you will expand your practical knowledge or gain new skills necessary to get a promotion, change jobs or industries. You will specialize in a selected area and a postgraduate certificate will strengthen your position on the job market.

Postgraduate studies at Vistula mean a narrow specialization and attractive, unique courses tailored to market demands. Classes conducted by experts and practitioners, will develop your potential, help you gain self-confidence and satisfaction.

PROGRAM:

Full-Stack Data Science Program

SILICON VALLEY EXPERIENCE IN EUROPE

in partnership with Magnimind

Overview

Vistula University from Warsaw, Poland, and Magnimind Academy from Silicon Valley offer a dual postgraduate and certificate program. This joint program is designed to create technical teams of excellent skill sets to meet the industry-specific needs of companies.

There is a shortage of skilled data scientists to meet the business needs of today and the gap is set to widen in the future. With our customized training, you can fill this gap by getting trained by scientists and engineers from the Silicon Valley. The program will provide you the most essential skills and tools that are needed in top-notch companies in the world.

Our program offers Data Analytics, Python, Data Visualization, Applied Machine Learning and Deep Learning courses as well as seminars and interview practices which will equip you with the most recent technologies that will prepare you for the job market.

Program duration: 16 weeks, a total of 200 hours.

ERASMUS+ PROGRAM

Erasmus+

International experience is a huge capital. At Vistula Universities, you can gain such experience thanks to **the Erasmus+ program in which we actively participate**. The program is a European Union project in the field of education, training, youth, and sport. Students can study even one full year abroad raising their qualifications in one of our many partner universities. **You will get a monthly grant of up to EUR 520 for studies and up to EUR 620 for internships.**

Erasmus+ changes young people, their lives and minds. This is an accelerated course in adulthood. Abroad, you will make many decisions related to the studies, accommodation, and various everyday life situations. You will build your self-confidence and the ability to adapt to new circumstances, you will learn to solve problems. Employers will appreciate it.

Participation in the Erasmus + program broadens your horizons. You will get to know a new country, new people and learn about their culture, you will improve your language skills, and you can even learn a completely new language. You will gain valuable contacts, make interesting acquaintances and friendships. This may be one of the most interesting periods in your life, and the acquired competences will pay off in the future facilitating your professional success. With international experience, you will enhance your employability and employers will be more likely to entrust you with more responsibility.

SCHOLARSHIPS

Education costs money. Tuition, maintenance, textbooks, teaching aids - these are considerable expenses. However, you can substantially reduce the costs of studies. **Vistula Universities offer an extensive scholarship system.** It is a non-returnable material aid from the state budget.

The social scholarship is available to full-time and part-time students, including online students in a difficult financial situation, regardless of age, pursuing first- and second-degree study programs.

Those students may also receive **a social scholarship in an increased amount** to compensate for their residence in a student dormitory or in a facility other than a student dormitory, if daily commuting from the place of their permanent residence to the university would prevent or significantly hinder the study.

The Rector's scholarship, in turn, is awarded to students who obtain a high average grade or have scientific, artistic or sports achievements in international or national competition. For outstanding achievements in these areas, students may receive **the Minister's scholarship**.

A special scholarship for persons with disabilities may be applied for by students based on a minor, moderate or severe disability or an equivalent judgment, confirmed by the decision of an appropriate authority.

Students who, due to **random events**, find themselves temporarily in a difficult financial situation, may receive an allowance. A random event includes, for example, serious illness or a natural disaster.

Nobody is left without support at Vistula. If you are in a difficult situation, we are here to help.

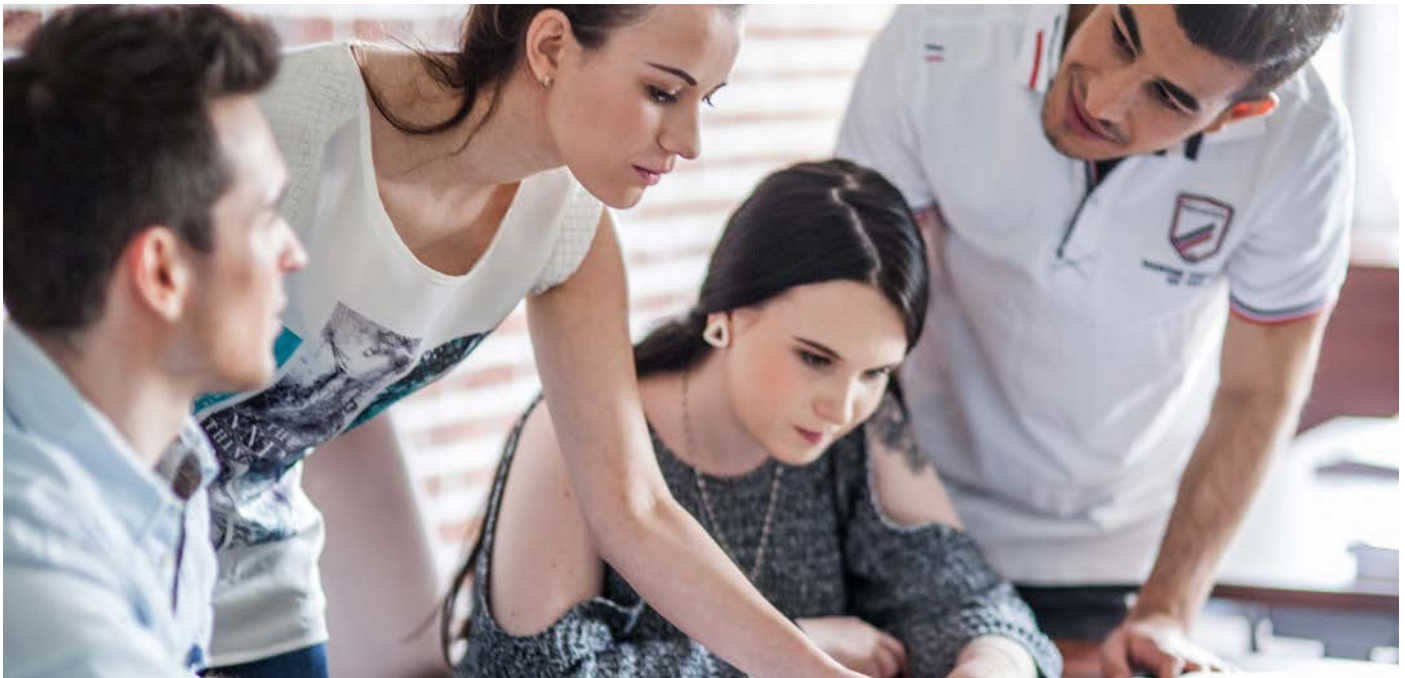

CAREERS OFFICE

The sooner you make your first contact with the business world, the better. In the Vistula Careers and Internships Department you will find professionals who will make it easier for you. They will teach you how to plan a career. You will be able to test your competences and benefit from methodological advice supporting the development of a career path. You will take part in interesting trainings and workshops, during which you will develop the competences sought for by employers, especially interpersonal and social ones. You will discover your strengths and it will be the key to your success.

The Careers and Internships Department closely cooperates with employers and establishes contacts with reputable companies and institutions both Polish and international. It organizes job fairs twice a year - JobSpot in autumn and JobDay in spring. Thanks to this, you will have a great opportunity to talk directly with recruiters, and we will support you in effective application and help you prepare a professional CV, in which you will present your strengths and arrange the content in an attractive way. This will give you a competitive advantage and you will quickly find your dream job.

At Vistula, you will use the **E-Career** portal and design your ideal career path. The portal is an innovative tool that is quite unique in Poland. It brings together communication channels between young people who have the ambition to find a rewarding, well-paid job, and employers who need qualified staff with specific education and skills.

The pillar of the portal is an online competency research system, thanks to which you will identify the skills desired on the market. You will meet with job advisers and receive guidance on how to further develop your competences. In the development database, you will find training proposals, interesting texts on designing your career path as well as links to interesting movies and podcasts.

E-Career facilitates and speeds up recruitment. The platform will give you a competitive advantage just before you enter the job market.

On the E-Career portal you can set up your account providing information about yourself. This will give you access to job offers and internships selected especially for you. This way, you will easily establish contacts with potential employers and send them your CV.

STUDENT CLUBS AND ORGANISATIONS

You already know that in order to be successful, you need to do more than just complete your studies. It is good to stand out among other young people on the job market, to rise above average. One way to do it is to engage in the activities of research clubs and student organizations. You will mix business with pleasure, and you will get only benefits.

At Vistula, you have a huge choice. We have here, among others, the Bankers Club, Academic Club of Dietetics, HR Global Trends Student Club, Academic Club of Hospitality, Student Science Club “2B”, Journalism Research Club, Architecture and New Media, Academic Club of Diplomacy, Photo Club and many more. They all bring together students who share similar interests and passions. You will meet interesting people, and thanks to working together you will gain additional knowledge and valuable experience. You will learn to discuss and create projects and have a chance to build your self-confidence. Such an additional activity is sure to be appreciated by employers, giving you a much better start.

Student organizations are especially focused on community activities. Although their members are students from various scientific areas, they all share one passion – that of acting for the common good. They are creative and ambitious, and they can inspire others to become so. Interacting with such people is a great adventure. You will get a unique experience and maybe meet someone who will change your life.

Vistula also has an offer for lovers of music and singing, namely, the Academic Choir operating at our University. If sport is your passion, Academic Sports Association is just for you. Sport shapes the character. It teaches discipline, consistency, and perseverance. You will use it in life and at work.

MENTORING PROGRAM

THE MENTORING PROGRAM

You may find the beginning of your studies challenging and stressful. This is quite natural considering that you find yourself at a new university, in a new environment and among new people. However, at Vistula you will not be left alone to cope with those first experiences. You will have a mentor who will guide and help you. Mentors are students just like you, but they are 2-3 years older and more experienced. They will help you find your feet in the academic community easily and quickly, and then you will spread your wings.

The Mentoring Program is a unique project. It was created to support new students, encourage them to take full advantage of their potential and development opportunities offered by Vistula Universities, and to improve their academic achievements.

A mentor is an advisor, tutor and guide who supports, teaches and serves as a role model for new students. Mentors share their knowledge and experience, point the directions of development. They also motivate mentees to make positive changes and help them in establishing valuable contacts. Your mentor will help you develop learning, analytical and reflective skills. You will gain organizational and professional competences. You will also increase your self-confidence, a sense of independence, and an ability to accept criticism or take risks. You will gain new skills in leadership, counselling and interculturalism. These are valuable qualities that you will use in your professional career.

The number of Mentors at Vistula Universities is growing every year. There is also a growing number of students who appreciate the importance of such partnerships.

The Mentoring Program is just one of the many forms of student support. At Vistula, you can also count on the help of colleagues, advisors, and our academic staff.

RECRUITMENT RULES

1

APPLY ON: <https://apply.vistula.edu.pl/>

Fill in the on-line application and attach your documents:

- Passport copy;
- Secondary School certificate with attachment;
- Scan of the photo;
- Language Certificate;
- Bachelor's Diploma (in the case of MASTER's Degree programs);
- Official transcript of records from the previous University, and petition to the Dean (for those who want to TRANSFER to our University).

Please, make sure you SUBMIT your application, so that we can review it.

2

APPLICATION EVALUATION:

The Admissions Committee of the Vistula Group of Universities will evaluate your documents. The evaluation will take up to 5 working days.

After evaluation, you will receive:

- Conditionally Accepted Offer letter;
- Study Contract;
- Invoice for payment

In those cases where documents are missing, you will get further information from us.

If you are a TRANSFER student, you will receive an invoice for an administrative fee payment (85 EUR). After payment, your documents will be forwarded to the Dean's Office. The decision-making process takes up to 2 weeks.

3

MAKE YOUR PAYMENT:

When we get your payment, you will receive confirmation through your on-line profile.

If you do not get it confirmed within 5 days, please e-mail us your confirmation of payment to: cooperation@vistula.edu.pl.

Accept the study contract in your on-line application and receive the documents of acceptance – acceptance letters and invitation letter.

4

APPLY FOR VISA:

Please, check the procedure and the list of required documents, on the internet site of the consulate. Prepare carefully for your visa interview. Make sure you know a lot about Poland, Warsaw, the University, and your program.

If you get a visa refusal, please, write to refund@vistula.edu.pl to proceed with your refund.

5

APPLY FOR ACCOMMODATION:

Please, write to accommodation@vistula.edu.pl to get full details.

6

APPLY FOR THE MENTORING PROGRAM:

Apply for the Mentoring Program and get a local Mentor before you arrive in Warsaw. He/She can also help you arrange an Airport Pick-up through this program.

7

PREPARE YOUR DOCUMENTS:

Please, check the list of documents you should submit upon your arrival at the University.

8

GET ENROLLED

2 days after arrival in Poland, you should submit your original documents to the Recruitment Office (room 28, for preparatory language courses – room 325A). After that, you will get your student ID card and study plan.

LET'S MEET IN PERSON OR ONLINE
