IN  OR IN 

SPECIALISATION: ARTISTIC GRAPHICS

You will significantly expand your knowledge of graphic techniques, also in the field of computer graphics. Master's studies at Vistula University will allow you to create artistic experiments, using your imagination, your own drawing skills, or photography. You will create many unique works, spatial objects and graphic installations.

LIST OF COURSES:

- Drawing and painting laboratory,
- Laboratory of book art,
- Workshop graphics laboratory,
- Laboratory of words, images and creations,
- Alternative photography.

CAREER AFTER STUDIES:

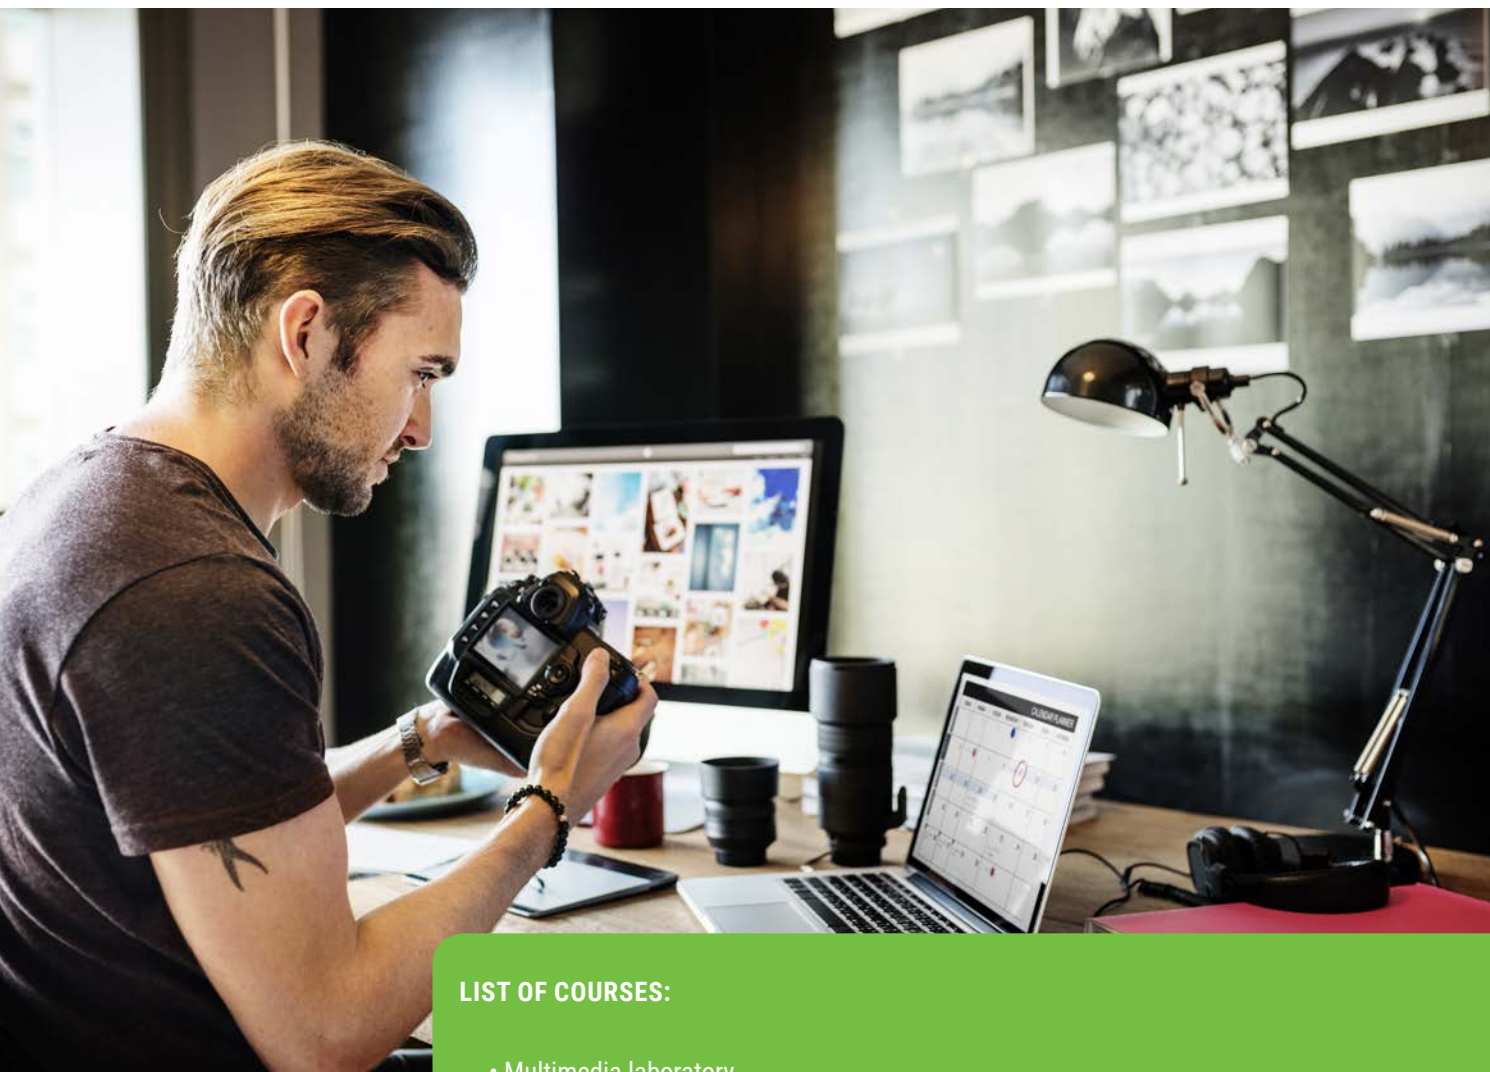

- illustrator,
- workshop graphic artist,
- designer in cultural-artistic institutions (among others, galleries, theatres),
- photographer,

- art teacher,
- animator of culture,
- employee of a cultural centre or artistic centre,
- organiser of workshops for children, youths and adults,
- instructor in art classes,
- illustrator in firms and institutions.

SPECIALISATION: INTERDISCIPLINARY GRAPHICS

You will expand your knowledge of analogue and electronic media, and you will become a conscious artist prepared to work in areas related to artistic creation. You will gain the experience necessary to implement your own concepts and develop competences as a computer graphic designer. Studies in this speciality have been planned for those who want to engage in commercial art.

LIST OF COURSES:

- Multimedia laboratory,
- Graphic design laboratory,
- Video creation 2,
- Utility workshop graphics laboratory,
- Creating original photo projects,
- Alternative processes in photographic creation.

CAREER AFTER STUDIES:

- designer in publishing houses,
- designer in artistic design studios, advertising agencies, and cultural-artistic institutions,
- graphic artist in printing houses,
- DTP specialist,

- creative graphic designer,
- art director,
